

Scope

Elexon Electronics specialises in the design, development, manufacture and repair of electronics and associated software.

Our Mission

Elexon delivers innovative solutions by amplifying the effectiveness of its staff's talents and passion, its tools, its processes and its suppliers.

Core Objectives

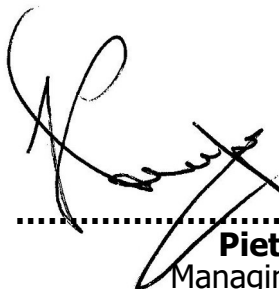

Elexon will ensure customer satisfaction by measuring:

- On time deliveries,
- Customer initiated Elexon Improvement Notes (EIN's), and
- Product that passes or fails first production test.

Elexon's commitment to the concepts and requirements contained in our quality management system ensures our continued success in providing products and services that exceed the expectations of our clients.

Elexon analyses its context and its stakeholders, and derives KPIs and objectives based on our stakeholders' needs.

Elexon is committed to continually improve its Quality Management System.
