

Scope

Elexon Electronics is committed to providing a service in a manner which minimises our potential impact on the environment.

Our Mission

We will operate in compliance with all relevant environmental legislation; strive to use pollution prevention and environmental practices in all we do.

Core Objectives

Elexon Electronics will:

- Integrate the consideration of environmental concerns and impacts into all of our decision-making and activities.
- Promote environmental awareness among our employees and encourage them to work in an environmentally responsible manner.
- Train, educate and inform our employees about environmental issues that may affect their work.
- Minimise our energy use where practical and source from green energy companies.
- Reduce waste & promote efficient use of materials and resources through re-use and recycling and by purchasing recycled, recyclable or re-furnished products and materials where these alternatives are available, economical and suitable.
- Avoid unnecessary use of hazardous materials and products, seek substitutions when feasible, and take all reasonable steps to protect human health and the environment when such materials are used, stored and disposed of.
- Purchase and use environmentally responsible products accordingly.
- Develop and maintain appropriate emergency and spill response programmes where required by legislation or significant health, safety or environmental hazards exist.
- Communicate our environmental commitment to clients, customers and the public and encourage them to support it.
- Strive to continually improve our environmental performance and minimise the social impact and damage of activities
- Set objectives and targets to measure our performance and identify opportunities for improvement by analysing our context, stakeholders, and derive KPIs and objectives based on our stakeholders' needs.
